

ROADRUNNER | ROOFING SUPPLY INC

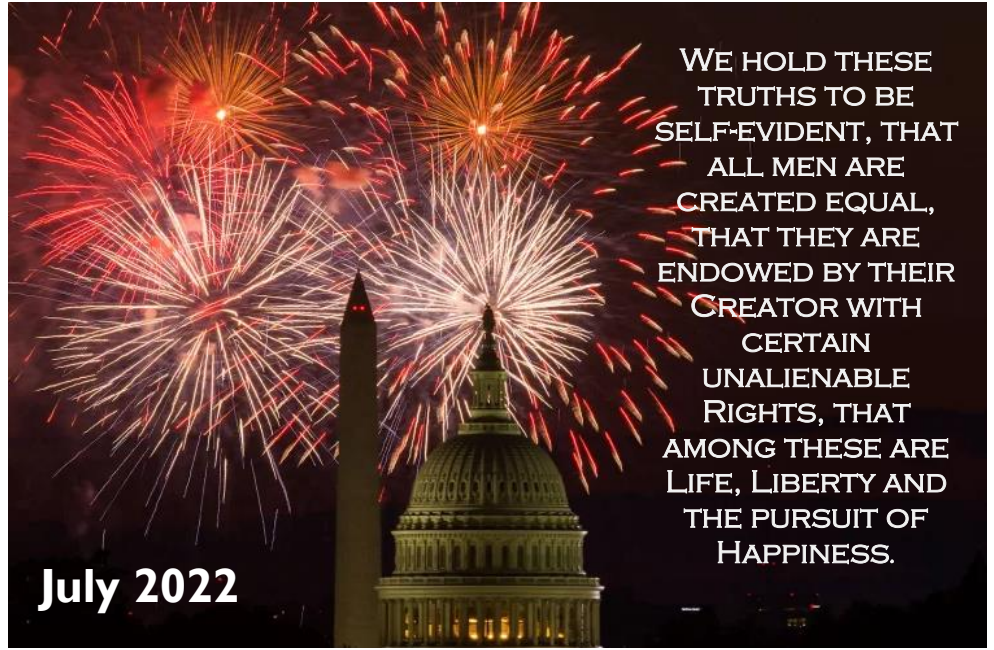

Upcoming Price Increases

-Effective July 1st, Our Delivery Fee will be \$89 for Morning deliveries and hot shots. Scheduled afternoon deliveries are still free.

-Citing rising costs in transportation and raw materials, industry wide price increases have been announced for August 2022. The Announcements are linked to the Manufacturer's below.

Notes From Your Roadrunners

WE HOLD THESE TRUTHS TO BE SELF-EVIDENT, THAT ALL MEN ARE CREATED EQUAL, THAT THEY ARE ENDOWED BY THEIR CREATOR WITH CERTAIN UNALIENABLE RIGHTS, THAT AMONG THESE ARE LIFE, LIBERTY AND THE PURSUIT OF HAPPINESS.

July 2022

Wishing you and your families a Safe, Meaningful, & Happy Independence Day!

No Deliveries July 2

Closed July 4

Congratulations to a New Citizen!

We are proud to announce our teammate, **Armando Figueroa Saucedo**, has attained his citizenship!

Congratulations Armando! You have always been a valued & dedicated team member and we are proud of the hard work and determination that you showed to achieve this momentous accomplishment! Thank you for being part of our team!

Please help us congratulate Armando on this outstanding achievement!

Washington's Red Roof

The West Front of Mount Vernon by Edward Savage, c.1787-1792, MVLA.

“One of the most recognizable features at Mount Vernon is the iconic red roof of the Mansion, but the shingles were not always red.”

We Need To VENT!

[Click here](#) for an in depth look at what happens when assumptions are made when calculating ventilation. Air vent has also produced a great tool for calculating attic ventilation that we've attached [here](#).

Use this attic inspection form to identify potential problems with the attic ventilation system.

STYLE OF ROOF		EXTERIOR INSPECTION	
Basic gable	<input type="checkbox"/>	Total Length of Horizontal Ridge:	_____
Basic hip	<input type="checkbox"/>	Total Length of Diagonal Ripe:	_____
Lean of gables	<input type="checkbox"/>	• Signs of damage from inadequate ventilation	
Lean of hips	<input type="checkbox"/>	• Warped, buckled roof deck	<input type="checkbox"/> Yes <input type="checkbox"/> No
Curved	<input type="checkbox"/>	• Hair, moisture damage to shingles, ceiling, cracking, full raveling	<input type="checkbox"/> Yes <input type="checkbox"/> No
EXISTING EXHAUST VENTS		• Soffit, peeling paint, signs of leaking from roof	<input type="checkbox"/> Yes <input type="checkbox"/> No
Ridge Vents _____ and/or Hip Ridge Vents _____		• Problems with ice dams in the winter months	<input type="checkbox"/> Yes <input type="checkbox"/> No
Roof Louvers _____		• Sinks at edge of roof in winter	<input type="checkbox"/> Yes <input type="checkbox"/> No
Power Fans _____		• Unworn snow melt on roof	<input type="checkbox"/> Yes <input type="checkbox"/> No
Wind Turbines _____		• Gutter damage from ice dams	<input type="checkbox"/> Yes <input type="checkbox"/> No
Cable Louvers _____			
SIZE & NUMBER OF INTAKE VENTS		INTERIOR INSPECTION	
The Edge _____		Square footage of attic:	
Vertical Drop Edge _____		• Blockage of intake vents (insulation, etc.)	<input type="checkbox"/> Yes <input type="checkbox"/> No
Continuous Soffit _____		• Signs of leaks on attic ceiling	<input type="checkbox"/> Yes <input type="checkbox"/> No
8" x 16" under-eave _____		• Signs of damage from inadequate ventilation	<input type="checkbox"/> Yes <input type="checkbox"/> No
6" x 16" under-eave _____		• Moisture damage	<input type="checkbox"/> Yes <input type="checkbox"/> No
4" x 16" under-eave _____		• Basic, dirt on exposed nails	<input type="checkbox"/> Yes <input type="checkbox"/> No
		• Compressed attic insulation	<input type="checkbox"/> Yes <input type="checkbox"/> No
		• Mold, mildew in the attic	<input type="checkbox"/> Yes <input type="checkbox"/> No
		• Blackened plywood	<input type="checkbox"/> Yes <input type="checkbox"/> No

ATTIC VENTILATION GUIDELINES
For optimum attic ventilation for today's tightest built, higher r-mined homes that have more efficient building materials, Air Vent recommends exceeding minimum building codes.* Air Vent recommends 1 square foot of ventilation for every 150 square feet of attic floor space with:
*half of the openings at the ridge for exhaust *half of the openings low at the roof's edge or in the soffit for intake
*Note: For minimum building code requirements you may be able to use the 1/300 ratio but Air Vent recommends the 1/150 ratio.

Payment Options

1.) Our Most Popular Method

Email a Picture of your Check, along with the Remittance to our Accounting Team:
LoriB@RoadrunnerRoofingSupply.com

2.) ACH from our Bank to yours

Click [Here](#) for our ACH form
